

OH, SAY! DID YOU SEE TEN BILLION TONS OF COAL? ALL IN ONE LUMP!

It is simply a mountain of coal standing right out so you can see it! And it runs away back and down in the earth so that there's millions and millions more tons that you can't see yet.

This mountain of coal is up in Alaska.

It is this coal which, if congress passes the Poindexter bill, or some other measure which will serve to satisfactorily open up the rich north-

ern empire, will be mined by Uncle Sam and brought to the United States and sold at prices that will mean a big saving to the consumers.

This photograph shows an outcropping of coal in the Nenana river field.

It is only 70 miles from Fairbanks, and is close to the route of the suggested railroad through the Copper River valley, one of the routes which will be considered if a government railroad is constructed.

And listen! The aggregate thickness of this great vein of coal, protruding boldly above the surface, where one may hack it to pieces and carry it away, is 231 feet.

Even the trees in the foreground of the picture which look at first glance to be shrubbery, but which are 50 and 60 feet high, are draped in the shadow of this great peak of virgin coal.

The recent government report on the Nenana field gives some astounding figures.

In a careful summary it is estimated the total volume of coal in an area of 122 square miles in the Nenana region at ten billion tons.

And it remarks that this may only be one-third of the actual amount. ISN'T IT, DO YOU THINK, WORTH WHILE FOR UNCLE SAM TO OPEN ALASKA HIMSELF AND GIVE THE PEOPLE A CHANCE TO BENEFIT FROM THESE ENORMOUS RICHES?

SERIOUS RESULTS FROM POISON VINES

Elkhart, Ind. Woman Had Nervous Breakdown Due to Getting Poisoned Nearly Two Years Ago—Was In Awful Condition Until Treated By Local Specialists.

Mrs. Rachel Young, one of the oldest residents of Elkhart, Ind., tells a peculiar story of how she was poisoned in the woods about two years ago, and the terrible results to her nervous system and general health. She tells her story in a public letter as follows: "I wish to say to the public that I suffered for two years from blood poisoning, nervousness and dizziness, was unable to do my own housework, no appetite. I was induced to go to the United Doctors, and they gave me a rigid examination and pronounced my case an anemia of the spine, enlarged liver, and nervousness. I commenced their remedies on Dec. 24th. Will say they struck the keynote, as the results show. I am now able to do my own housework, eat anything that is set before me, am gaining flesh, bowels regular, and feel almost as sound as I ever did, and would recommend the public to call on these great doctors if they want relief."

I was inspired by them by seeing them turn down cases they didn't feel they could benefit. It seems money isn't all they are after.

My husband, Henry Young, is an old pensioner, and lived here 50 years, and he certifies to what I say.
